NPIC/TDS/D-679-67

9 February 1967

MEMORANDUM FOR: Director, National Photographic Interpretation Center

THROUGH : Chief, Support Staff, NPIC

SUBJECT : Request for Overrun of [] from FY-1965 Funds
for Contract []

REFERENCE : Chief, Administration Staff, O/BDI Memorandum dated
4 February 1964: Approval of Research and Develop-
ment Activities.

1. In 1965, NPIC contracted with [] for the
development of a prototype Improved Anamorphic Viewing System under
a CPIC contract for []

2. In a letter from the contractor, dated 2 February 1967, an
overrun payment was requested because of unanticipated difficulties
encountered in the fabrication. The difficulties simply amount to
an original underestimation of the engineering and designing time
required to complete this development, and preliminary evaluation has
indicated that the ideas and concepts implemented in the anamorphic
viewing system are of considerable value to NPIC. Concurrence for the
action has been obtained through verbal conversations between []

IAS.

3. To avoid any future misunderstanding, qualification must be
made to the contractor's statement "Your technical representative is
aware that Bausch and Lomb manufactured an additional set of eyepieces
on the subject contract." The contractor made the technical repre-
sentative aware of this condition after they had manufactured the

eyepieces and found themselves in an overrun condition. As clearly indicated in the contract inspection reports, this condition was not revealed until 6 January 1967. This recommendation for approval of the overrun is conditioned on the acceptability, by the contracting officer, of the contractor's allocation of costs as outlined in his request for additional funds. It must be determined by our auditor that none of the cost of the second set of eyepieces is charged against our contract.

4. In accordance with the authority delegated in paragraph 3 of the reference, it is requested that the overrun of [] for Contract [] be approved and charged against FY-1965 funds. The Budget and Financial Branch has affirmed that sufficient FY-1965 funds are available to make this payment.
